

## EXPLORING YOUR ISA OPTIONS

### *Time to give your financial future a boost?*

The end of the tax year falls on 5 April each year, providing the deadline for making the most of your annual allowances. No matter what, why or how you want to save and invest, an Individual Savings Account (ISA) could help make your money work harder for you.

ISAs are tax-efficient wrappers. Every tax year, we each have an annual ISA allowance. If you don't take full advantage of using all or part of it in one tax year, you cannot carry it over to the next.

There are various tax advantages to saving or investing through an ISA: you don't pay Capital Gains Tax on any capital growth nor Income Tax on any income received, either as interest or dividends, from the investment or cash savings. Another advantage is that you don't have to declare ISAs on your tax return.

### TYPES OF ISAS AND THEIR ALLOWANCES

There are currently six different types of ISA.

#### CASH ISA

Anyone over the age of 16 can put their cash savings into a Cash ISA. Accounts can be either instant access, have notice periods or have fixed terms.

The annual allowance for a Cash ISA is £20,000 (tax year 2020/21). You can invest up to this full amount in your Cash ISA, or you can share this allowance between the different types of ISA, with the exception of the Help to Buy ISA.

#### STOCKS & SHARES ISA

A Stocks & Shares ISA is a medium-to-long-term investment (five years or more). Anyone over the age of 18 can put individual shares or managed funds into a Stocks & Shares ISA. It enables you to decide how much risk you are prepared to take when investing, offering access to a range of funds and the potential for better returns than a Cash ISA over the long term.

The annual allowance for a Stocks & Shares ISA is £20,000 (tax year 2018/19). Again, you can invest up to this full amount in your Stocks & Shares ISA, or you can share it between the other types of ISA.

#### INNOVATIVE FINANCE ISA

This ISA is for investments in peer-to-peer lending platforms. You must be over the age of 18 to invest.

The annual allowance for an Innovative Finance ISA is £20,000 (tax year 2018/19). Once again, you can invest up to this full amount in your Innovative Finance ISA, or you can spread it out between various types of ISA.

#### LIFETIME ISA

The Lifetime ISA is designed to help investors over the age of 18 and under the age of 40 to save for either a first house purchase or their retirement. Once you have a Lifetime ISA, you can continue to contribute until the age of 50. You can put a maximum of £4,000 into a Lifetime ISA each tax year and are paid a 25% bonus from the Government.

The bonus is paid in monthly instalments, and the maximum bonus you can earn in a tax year is £1,000.

The amount you pay in is linked to your annual ISA allowance (£20,000 for 2020/21). For example, if you pay £1,000 into your Lifetime ISA, you can still pay £19,000 into other ISA products. The proceeds can be used to purchase your first home worth up to £450,000 regardless of its location.

#### JUNIOR ISA

Cash or investments can be wrapped in this ISA on behalf of children under the age of 18. Anyone can invest in the Junior ISA – parents, grandparents or friends. The money belongs to the child, and they can access it when they reach 18 years of age. The Junior ISA has an annual allowance of £9,000 (tax year 2020/21).

**You must be a UK resident or crown employee to invest in any type of ISA#**
